

Sofa

**Bedroom** 

At its most basic, homeworking can be done from a sofa with a laptop

**Kitchen Table** 

Some home workers can set-up on a kitchen table

### **Premium Garden Office**

Premium garden offices offer supreme build quality for a perfect working environment all year round (including security, insulation, UPVC windows and doors and long-life roofing)

#### **Extension**

Having a purpose-built bricks-and-mortar extension added to work from the comfort of home

## **HOME OFFICE TYPES PRICE RANGES AND PROS AND CONS**

ΤΥΡΕ	PROS	CONS	PRICE RANGE
<b>Sofa</b>	Low cost, cosy and comfortable, pleasant working environment	No storage space, basic working conditions, work interruption likely	Zero
Kitchen table	Low cost, tabletop working space, reduced need for storage	Uses home space, basic working conditions, may not suit home working	Zero
Bedroom	Low cost, provides privacy, cosy and comfortable	Poor work/life balance, may not suit home working, reduced productivity (bedrooms place of rest) [1]	Zero
<b>Spare room</b>	Low cost, potentially a choice of rooms, makes use of unused space	Uses home space, may have insufficient space, may limit guests being able to stay	Zero
Garden office shed	Built for purpose work environment, home space not used, better work/life balance	Additional costs, uses garden space, may need to add electrics, heating & insulation, might not be suitable all year round	<b>£800</b> upwards depending on size and quality
Premium garden office	Premium construction, can be used all year round, perfect work environment, adds value to your home	Higher costs than a standard garden shed, uses garden space, may require electrics to be added	<b>£5,000</b> upwards on size and quality
Extension	Comfort, adds additional space and value to your home	Most expensive option, uses garden space, prone to disruptions	<b>£20,000</b> upwards depending on spec
